First Congregational Church

Interlochen summer

An aerial view of a car body assembly line. Two car chassis are positioned on a conveyor system. Several yellow robotic arms are visible, some with their arms extended towards the car bodies. The floor is made of grey metal plates with a diamond pattern. The overall scene is industrial and brightly lit.

Retirement Home

Four pieces lifted and set in place, then two months later, we moved in!

Happy to move
to the Crystal
Lake area!
